

Water Rates

Your monthly water bill is calculated by adding together a customer charge and a volume charge. While the customer charge covers the cost of billing and maintaining an account, the volume charge is based on the amount of water consumed that is measured by the water meter.

Customer Charge

Through 5/8" Meter	\$20.60/month
Through 3/4" Meter	\$20.60/month
Through 1" Meter	\$37.00/month
Through 1 1/2" Meter	\$70.00/month
Through 2" Meter	\$110.00/month
Through 3" Meter	\$210.00/month
Through 4" Meter	\$335.00/month
Through 6" Meter	\$655.00/month
Through 8" Meter	\$1,040.00/month

Minimum Billing: The minimum monthly billing shall be the same as the customer charge shown in the above table.

¹ Volume charge for all water per 100 cubic ft (c.f.)

² Volume charge for all water per 1,000 gallons (gal.)

³ Outside City Limits = 1.5x the rates shown

⁴ This rate applies to monthly water usage for May through October that exceeds 150 percent of the customer's average monthly usage for November through April. For example, John Doe used an average of 400 c.f. per month from November through April, so 150% of his November through April average usage equals 600 c.f. Therefore, for May through October, his volume charge will be \$5.24 per 100 c.f. for monthly usage up to 600 c.f. and \$7.01 per 100 c.f. for monthly usage over 600 c.f.

⁴ Applies to all residential irrigation meters.
